ZIMRAN ULLAH

AI Software Engineer & Web Developer

Jaypee Institute of Information Technology, Noida | zimranullahsjc1999@gmail.com | +91 9792674456
linkedin.com/in/zimran-ullah | github.com/ZimZam07

Education

Jaypee Institute of Information Technology, Noida — **2024 – Present**
Bachelor of Technology (B.Tech) – Computer Science Engineering — CGPA: **6.7**
Semester: **4th Semester**

Allahabad Public School, Allahabad
Class XII – Passed in **2024**

Skills

Programming & Software Development: C++, Java, Python, JavaScript, OOP, Software Engineering, DAA, Competitive Programming
AI & Machine Learning: Artificial Intelligence, Machine Learning, Scikit-learn, TensorFlow, NumPy, Pandas, Model Training & Evaluation, Data Preprocessing, Basic Deep Learning
Web & App Development: HTML, CSS, JavaScript, React.js, Node.js, Responsive Web Design, REST API Fundamentals, Android Development (Java + XML)
Databases & Backend: DBMS, SQLite, JSON Data Handling, Basic Backend Development
Tools & Platforms: Git, GitHub, VS Code, Android Studio, Vercel, Postman
Core CS Concepts: DSA, Operating Systems, DBMS, Problem Solving, Time Complexity Analysis, Basic System Design

Projects

JIIT Lost & Found Platform — Live Project | GitHub
Tech Stack: HTML, CSS, JavaScript, React.js, Node.js, JSON, GitHub, Vercel/Lovable
- Built a campus-based **Lost & Found web platform** for JIIT students with **item posting**, **finder request handling**, and **JIIT email-based verification**.
- Added **reward-based listings**, **image uploads**, **item status tracking**, **owner-controlled request management**, and responsive UI workflows.

AI-Powered Fitness Assistant — Live Project | GitHub
Tech Stack: Python, Flask, Scikit-learn, TensorFlow, Pandas, NumPy, SQLite, HTML, CSS, JavaScript
- Developed an **AI-powered fitness assistant** with personalized workouts, fitness tracking, **calorie/water tracking**, **PR monitoring**, and dashboards.
- Integrated **Machine Learning workflows** for recommendation handling, activity analysis, progress analytics, and SQLite-based user data management.

SpendSense – Smart Subscription Expense Tracker — GitHub
Tech Stack: Java, Android Studio, SQLite, XML, MPAndroidChart, Git, GitHub
- Built an Android app to track recurring subscriptions, monthly spending, categorized expenses, and **automated renewal reminders**.
- Used **SQLite** for local storage and **MPAndroidChart** for interactive dashboards, spending analytics, and financial insights.

Certifications

Basics of Machine Learning Algorithms – UniAthena: Machine Learning algorithms, data analysis, and model-based problem solving.
AI Tools Workshop – Be10x: Practical AI tools, AI-assisted workflows, and productivity-focused AI applications.
AI for Beginners – HP LIFE: Artificial Intelligence concepts, Machine Learning basics, and AI applications.

Additional Experience & Achievements

- Active member of the **College Modelling Society**, enhancing **communication**, **presentation**, and interpersonal skills.
- Worked in product marketing and sales promotion for **Forever Living Products India**, gaining exposure to **business communication** and **marketing strategies**.
- Published author of **"Chaand Suraj"**, available on platforms including Amazon.
- Worked as **Content Creator** for **@firangitattoostudio** (**Jan 2025 – May 2025**), handling **content planning**, post management, and engagement.
- Managed **social media operations** and content coordination for DJ brand **@styylus._** (**Aug 2025 – Feb 2026**).
- Strong interest in **Competitive Programming**, **DSA**, and **AI-based Software Development**.
